To whom it may concern;

Our plan is to tear down 5 old buildings. We will use one strictly for parking, replace one with a new upgraded building, and replace 3 buildings with 4 camp sites, each of which will be no less than 3,000 sq. ft of space.
Adornment with plants, shrubs and gardens is worked out with the new member on that site.

#1 will be 50' in width and 90' in length
#2 will have 2 sites, each being 60' in width and 55' in length
#3 will be 60' in width and 50' in length

When completed, this project will cost nearly three hundred thousand dollars, but is well worth our investment.
We already have spent almost four hundred thousand dollars in landscaping, upgrades and aesthetic maintenance.
The results have been wonderful.

Thank you for your time and consideration in this matter.

David Dyer
Park Administrator
