

Catawba County Building Services

BULLETIN

Attention Contractors: The Building Services Division would like to make you aware of some recent items of change.

- Starting Monday, October 3rd, 2011 and due to the large staff reduction within our department, inspection requests for AM or PM scheduling, along with requests for a call ahead by the inspector prior to arriving on site, will be available only for residentially *occupied* dwellings that require the homeowner to be present for the inspection since personal items would be in the home. To find out who your inspector is, you can look on our website at www.catawbacountync.gov then click on *Online Permit Center* under the Quick Links and under the Quick Links button select *Inspectors Daily Assignments*. Putting in today's date will show you all inspections scheduled for the day and who they are assigned to with the inspectors cell phone number for you to contact. These assignments are typically made by 7:00 AM the morning of the schedule inspection. You may also call the Permit Center after 8:00 AM the morning of the scheduled inspection.
- The following NC Building codes are now available for purchase from ICC or DOI and are optional to use for projects permitted until March 1, 2012. The mandatory date for use of these codes is March 1, 2012.
 - Commercial Building Code
 - Mechanical Code
 - Fuel Gas Code
 - Plumbing Code
 - Fire Prevention Code
- The NC Residential Code, Energy Code, and the 2011 NEC will be following at a future date that is currently undetermined.

You are always welcome to contact us with any questions or comments.

Main office and Scheduling number: 828-465-8399 and Dial "0" for Permit Center Staff.
