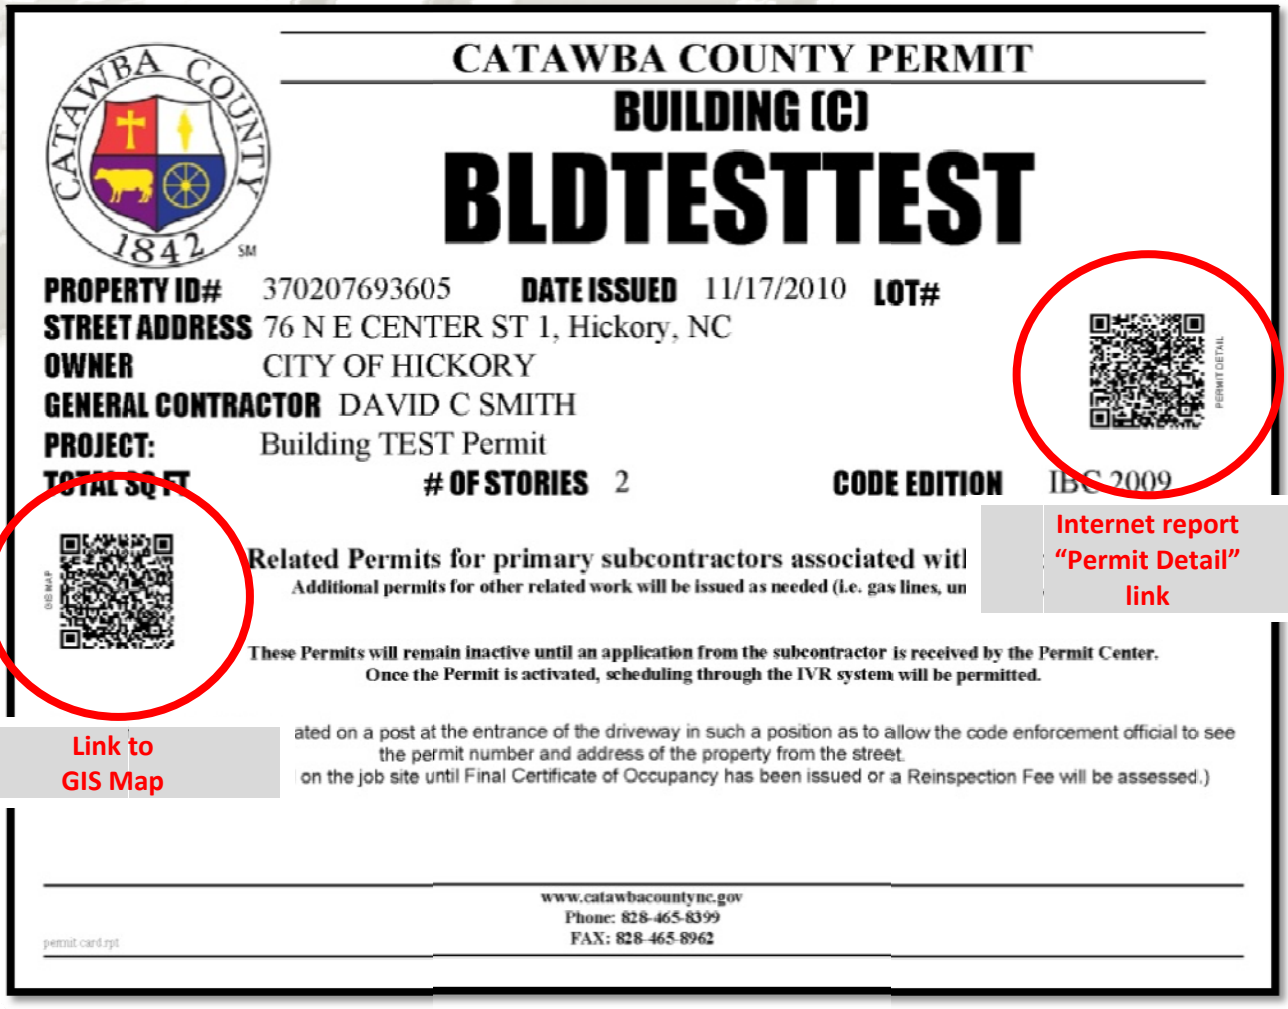
CATAWBA COUNTY BUILDING SERVICES UPDATE

PERMIT HARD CARDS
SMARTPHONES
QRCODES

With the popularity and use of smartphones and tablets growing, Catawba County is looking to incorporate this new technology. One way, is to place a pair of QRCodes (Quick Response Codes) on the Permit Hard Card that is posted at each construction site. These codes will allow the user to access data quickly using a smartphone or tablet. The QRCode on the right links the user to the web report Permit Detail on the internet for this specific permit. From there, the user can see pertinent information including inspection status and results. The other QRCode, links the user to the GIS map for the related parcel. This will allow the user to verify boundaries, lot size and lot shape.

As we find other uses for QRCodes and other ways to incorporate smartphones and tablets, we will let you know. We are also open to your suggestions and ideas to better utilize these and other technologies.



CATAWBA COUNTY PERMIT

BUILDING (C)

BLDTESTTEST

PROPERTY ID# 370207693605 **DATE ISSUED** 11/17/2010 **LOT#**

STREET ADDRESS 76 N E CENTER ST 1, Hickory, NC
