Medassist

Non-profit that manages the free prescription drug program for 8 pharmaceutical companies. www.medassist.org

Access 2 Wellness

A Johnson & Johnson program – the access point for free medications and equipment from various sources.
www.access2wellness.org

Requests for other types of specialty services need to be referred back to the individual's Carolina ACCESS physician. Most other specialty physicians will accept Medicaid; however, patients must have a referral in order for Medicaid to pay for the visit. For this reason, it is better for patients to contact their Carolina ACCESS doctor when calling for information regarding specialty physicians other than the ones above.
