Can I find out the discounted price of my prescriptions before going to the pharmacy?

Because prices can vary by location, only the actual pharmacy can tell you the exact price of the prescription. However, you can look up an estimated price for medications at <https://naco.advancerx.com>, or call toll free 1-877-321-2652.

Why did the price of my prescription change since the last time I purchased the prescription?

Drug prices are different from pharmacy to pharmacy. Even chains have different prices in their stores depending on the population they are servicing. Additionally, manufacturers' drug prices change periodically.

The brochure says I can save an average of 20 percent on my prescription medication. Will I save 20 percent on all my medications?

Because a pharmacy's retail price or usual and customary charge can differ greatly by pharmacy, your exact percentage of savings may vary depending on the prescription drug and the price you have paid before.
