### **BUDGETING**

No matter how good or bad your financial situation is, your family needs to know where its money is being spent, and more importantly, where the money should be spent. The use of a written budget gives you this knowledge and the ability to properly handle your money. One of the most difficult aspects of budgeting is planning for those major payments that are due at irregular times during the year. Make small monthly payments instead of large one-time payments – simply take the annual estimated cost of these expenses and divide by 12 to have a monthly cost.

Make at least a small payment every month on every bill.
