Greenway Public Transportation Seeks Your Input for the Five-Year Community Transportation Service Plan

The Western Piedmont Regional Transit Authority, operating as Greenway Public Transportation, is holding public meetings on several days and at several locations in the region. The purposes of the meetings are to solicit public input concerning a series of potential alternatives that have been developed for Greenway's Community Transportation Service Plan. This Plan will serve as a guide for transit services in Alexander, Burke, Caldwell, and Catawba Counties for the next five years.

The alternatives that are under consideration for inclusion in the plan are based on input provided by riders and the public. Three working reports have already been developed for the plan and can be accessed at: www.mygreenway.org. The draft plan will be developed after receiving public feedback concerning these alternatives.

The meeting schedule is follows:

- Alexander County:** CVCC Alexander Campus - June 14, 2010
3:00 p.m. - 6:00 p.m.
- Burke County:** WPCC Main Campus, Room LR 120 - June 15, 2010
