

Addendum One (RFP #18-1003)

35,000 POUND GVRW TRUCK CHASSIS (2018)
WITH HEAVY DUTY ALL STEEL CRANE BODY

Catawba County, N.C.

September 6, 2017

Question: What is the reason for asking to have the unit de-rated to 33,000 pounds?

Answer: We were trying to keep the weight down; does not have to be de-rated.

Question: The wheelbase is very short per the cab to axle measurement listed, is a longer wheel base allowed?

Answer: Wheel base is a minimum; a longer wheel base is allowed.

Question: The bids call out for 110 A/C Power outlet in the cab, can a power converter be used? If so, does it need to be mounted and wired into the trucks electrical system?

Answer: A power converter can be used and it does need to be wired into the electrical system.
