

Addendum One
Bid #18-1010 Pop-up Library Truck
Catawba County, North Carolina

January 4, 2018

Under the heading Jump Seat:

1. It is important to know the library's preferred location for this seat due to crash testing implications. Do they want it in the cab next to the driver's seat?

Response: Would like this jump seat to be placed in the cargo area of the van behind the bulkhead separating the driver's area from the cargo area.

2. What is meant by "most typical floor level installations"?

Response: It will be a standard height from the floor. An example of such a seat can be found at <http://www.freedmanseating.com/seats/handi-flip/>
