## AUTOMATED WASTE & RECYCLE COLLECTION TIPS

The automated roll-out waste & recycle collection program will result in a cleaner, more attractive environment as well as safer working conditions for our collectors. The new garbage & recycle collection system uses one type of container that will be emptied by automated equipment, making the process faster and safer. Wheeled carts make garbage & recycle collection easier for everybody. Carts are stable and designed to not blow over, even in high winds; lids are attached and snug-fitting to keep animals out; and carts also have a smooth interior, making cleaning easier.

To better service our customers, we ask you please:

- Place your container(s) at the curb by 6:00 am on the morning of or the night before your scheduled service.
- Place the container(s) within 4 feet of the curb with the handle and wheels facing away from the street.
- Make sure the container(s) is at least 4 feet from your recycle or other roll-out cart, trees, mailboxes, cars, yard waste, or any other obstructions.
- Place all items in the Republic Services cart for collection by our automated truck. Do not leave garbage or recycles outside the roll-out container.
- Notify us if your cart is damaged or stolen.
- Don't place construction debris, yard waste, or hot ashes in the cart.
- Don't overfill the cart; the lid must close.
- Don't pack garbage and/or recycles too tightly.
- Don't paint or write on the cart.
- Don't remove the cart from your residence.
- Don't put recyclable materials in the cart marked TRASH.
- Don't put garbage materials in the cart marked RECYCLE.
