

Attention Haulers and Contractors!

A **Shingle Supplier Certification Form** is required for each load of shingles accepted for recycling.

Forms can be picked up at the landfill **Scale House** or found **Online** at www.catawbacountync.gov/ue/solwasmg.asp

It is the **Haulers/Contractors Responsibility** to provide the County the required form.

List of information needed for the Shingle Supplier Certification Form:

- Company or facility name
- Supplier name
- Address
- Contact name
- Phone
- Verification the tear-off shingles are from a single family home or residential building having four or fewer dwelling units.
- Provide the addresses where the tear-off shingles were removed.
- Sign and date

**From Roofs
To Roads**

Get the Facts about Asphalt Shingle Recycling!

- **Did you know** that a large component of Catawba County's construction and demolition waste stream is asphalt shingles? An estimated 22.5 tons of shingles are buried in the county landfill each day.

Statewide it is estimated that there are more than 277,000 tons of shingles available annually for recycling.

Reasons to recycle shingles...

- **SAVES** customers **MONEY** through reduced tip fees.
- Saves landfill airspace.
- Helps to reduce operation costs.
- Extends landfill life.
- Saves taxpayers money through reduced road construction costs.

Effective February 1, 2013

In an effort to conserve landfill airspace, Catawba County is accepting clean residential asphalt shingles for recycling!
