### **Questions/Clarifications:**

1. **Question:** Several of the items in Attachment D seem to be exclusive to Boundtree and marked No Substitute, making them the only distributor that can bid all items. Will vendors be disqualified if they do not include anything for those items or can we bid a substitution for those items?

**Answer:** For those Curaplex items, you can bid a substitution. The County may have additional questions regarding the specifications of substitutions to confirm that they meet or exceed the County's standard.

2. **Question:** In Addendum No. 1, you have added contract language regarding Manufacturer Price Increase but want documentation from the manufacturer of price increase; not all manufacturers provide this, especially for pharmaceuticals. Will you look at industry-wide pricing on the product in question if documentation is not provided by the manufacturer?

**Answer:** The County is requiring documentation from the manufacturer for price increases outside of renewal periods.

3. **Question:** Vendor is able to provide a fixed percentage discount for catalog items; however, vendor cannot agree to fixed pricing on items for which a percent discount applies. Is this acceptable to the County?

**Answer:** Yes, this is what the County has requested in the IFB. Attachment D will provide fixed pricing for Core Items. Attachment E will provide a percentage discount on Non-Core Items. The County doesn't expect to receive a percentage discount in addition to fixed pricing.
