# Introduction

*This Commercial Recycling and Waste Reduction Resource Guide is designed to provide members of the commercial sector with information to enhance and grow their current environmental programs and give beginners the tools needed to start and sustain new programs for their businesses.*

## Why should businesses Recycle and Reduce Waste?

Here's why:

### Corporate Leadership Through Sustainability Initiatives

- Sustainability for business means making responsible decisions today that will have positive effects for the future allowing future generations to have access to the same resources and environmental benefits that we enjoy today.
- Recycling and reducing waste is good for the environment and is a prime example of corporate leadership and environmental stewardship.

### Instills Employee Pride

- Employees feel good about having a positive impact on the environment, being recognized and rewarded for their cost reduction and waste reduction efforts, and working for a socially responsible company.
- Attract the best of the best! Many employees who are knowledgeable and experts in their fields are also socially responsible and want to work for companies which demonstrate the same values.

North Carolinians throw away enough trash to fill 2,555 miles of dumpsters each year, enough dumpsters to line the length of N.C.'s Interstate 40 more than six times.

### Economic Reasons

- A recycling and waste reduction program saves money through cost avoidance.
- It can turn Trash into Cash!
- Operational costs are reduced by implementing proper waste management throughout the business process.
- It can increase your customer base - the public patrons businesses that make efforts to protect the environment.
- Recycling creates jobs, and that is a boost for the local and state economy.

### It's the Law

- The NC General Assembly has mandated landfill disposal bans on many items. Visit the website below for a list of materials that are banned from landfills and must be recycled in NC.  
[deq.nc.gov/conservation/recycling/state-agencies/general-recycling-requirements-and-banned-materials#Banned](http://deq.nc.gov/conservation/recycling/state-agencies/general-recycling-requirements-and-banned-materials#Banned)

# Partnership Program

JOIN THE **GREEN** REVOLUTION

## The Catawba County Commercial Recycling and Waste Reduction Partnership Program

### About The Program

The Commercial Recycling and Waste Reduction Partnership program is a free and voluntary program to encourage local businesses to take proactive steps to improve their environmental record while improving their bottom-line. The program recognizes businesses within Catawba County that operate in an environmentally friendly manner by practicing the 4R's (reduce, reuse, recycle, rebuy). The program is sponsored by Catawba County Utilities and Engineering Department.

### Rewards For Joining

- **FREE ADVERTISING!** - Recognition as a Green Business Partner through media outlets, educational events, presentations and forums.
- Receive a partnership decal to display in the workplace window.
- Access to networking with other businesses.
- Technical assistance from the Catawba County Utilities and Engineering Department and other resources.
- Access to recycling and waste reduction information for promotional materials.

### Here's how to join

- Begin by making a commitment to recycling and waste reduction.
- Establish a "Green Team".
- Complete and submit an online application which includes accomplishments of your company's environmental program and listing one or more significant goal(s) for the coming year in any of the following: recycling, waste reduction, reuse, buy recycled.

Online Application:

<https://catawba.seamlessdocs.com/f/Commercial>

- (Optional) Agree to act as a mentor to another business, offering information and technical assistance, facility tours, etc.
- Upon receipt of online application, Partners will receive a welcome letter and a window decal to display at the workplace.

### • JOIN NOW!

For more information about the Partnership Program visit:  
[www.catawbacountync.gov/county-services/utilities-and-engineering/solid-waste/recycling-waste-reduction](http://www.catawbacountync.gov/county-services/utilities-and-engineering/solid-waste/recycling-waste-reduction)

## Service Providers

Recycling Service Providers are the connection between those who generate waste materials and those who turn these materials into new products. The services you can expect depend on the type of materials generated, the condition of the materials, and most importantly, the quantity of materials available. For example, a company might provide a container and pick-up your recyclable materials if you generate a large quantity, but require delivery for small amounts.

*All of the following commodities are reusable or recyclable within our region along with contact information for vendors.*

## REUSEABLE DONATIONS

### Appliances Donation

(Must be in working order)

#### Exodus

510 1st Ave SW  
Hickory, NC 28602  
828-324-2390

### **Paper Recycling**

Paper may include office paper, colored paper, computer paper, envelopes, manila file folders, newspaper, magazines, phone books, corrugated cardboard, etc. Some companies require separation and some companies will take a mixed blend of all paper types. Each recycling company will explain their requirements. Revenue could be received for paper materials.

### Sources and Types of Recycling Containers

A recycling service provider may furnish external storage for collected recyclables. Depending on the size of the business and the possibilities for commingling, a business could use anything from a small dumpster to large rolling carts to simple small trash cans.

For rolling carts or recycling bins, you may want to work directly with a cart vendor - a few companies are listed below. Local janitorial supply companies may also be able to provide collection containers, especially in smaller quantities. Note that a web search may be the best way to find a wide variety of different cart and bin products.

Name	Phone	Website
Amick Equipment	800-922-3795	<a href="http://www.amickequipment.com">www.amickequipment.com</a>
Bush Systems	800-565-9931	<a href="http://www.buschsystems.com">www.buschsystems.com</a>
CleanRiver Recycling	888-646-4246	<a href="http://www.cleanriver.com">www.cleanriver.com</a>
Napcor	707-996-4207	<a href="http://www.napcor.com">www.napcor.com</a>
Otto	800-795-6886	<a href="http://www.otto-usa.com">www.otto-usa.com</a>
Rehrig Pacific	800-421-6244	<a href="http://www.rehrigpacific.com">www.rehrigpacific.com</a>
Rubbermaid	800-347-9800	<a href="http://www.rubbermaidcommercial.com">www.rubbermaidcommercial.com</a>
Schaefer Systems Intl	704-944-4500	<a href="http://www.ssi-schaefer.us">www.ssi-schaefer.us</a>
Toter Inc	800-424-0422	<a href="http://www.toter.com">www.toter.com</a>

Local hardware, home improvement, and office supply stores also have recycling containers. If you do not need to order large quantities, they may offer the simplest way to acquire bins and carts.

### Good Idea!

**Use five gallon buckets for internal handling in certain key locations inside. Businesses that serve food may have ready access to these buckets from incoming food shipments or janitorial supplies, they can also be purchased. Non-returnable shipping crates, boxes or other types of packaging can also be used for internal storage of recyclables.**

### When considering a recognition program, keep these ideas in mind.

- Keep the program simple, with categories that are easily measurable.
- Consider funding for the recognition and award program from site of facilities management, or from the revenues from the recycling program itself.
- Make regular program reports to both participants and site management.
- Highlight program success (either financial or otherwise) to all employees. Since each and every member of your company has participated in the success of your program, it is important that all employees receive recognition of their involvement through regular reporting on the quantity of material reduced through the source separation, reuse and recycling elements of your program. This may be done via bulletin boards, newsletters, or memos to building occupants. To demonstrate source reduction, e-mail should be used where feasible. If your results are particularly good, you may wish to involve the public relations staff to give your program more visibility.

### Group recognition

- A surprise break with snacks for the most recyclables collected .

### Department recognition

- Lunch paid for by the company for the department that collects the most recycled (paper for instance).
- Recycled content mugs, hats, or team t-shirts for the department with the largest reduction in paper usage due to double-sided use of paper.

### Entire company recognition

- Money saved in the total program is placed in the company benefits fund or donated to a charity on behalf of each employee.

### Consider rewards for the employee.

- Who makes the most contributions to the program; offers suggestions or assists in the program concept. Recognize the employee at a staff meeting or through interoffice e-mail or create a Thank You poster.
- Who collects the most cans and bottles during a specific time frame. Award a gift certificate.
- Who makes a suggestion to save the company money through waste reduction efforts. Award a bonus (commensurate with the amount of money saved).
- With the most recyclables in their bin, during an on-the-spot inspection. Award a small gift (recycled content) on the spot.

### Individual recognition

- Give certificates of appreciation.
- Recycled content gifts (walk the walk).
- Gift certificates to local restaurants or local health food stores.
- TIME OFF - this is always a favorite with staff. An extra hour for lunch or leaving early on a Friday afternoon can make anyone feel appreciated.

*Thank You*
