Square Foot Construction Cost: Published by ICC based on occupancy and type of construction.

Catawba County Building Cost Factor (CCBCF): A mechanism for adjusting building construction costs specifically for Catawba County set for each building group and construction type annually with County budget adoption and are based on actual documented building costs during the fiscal year and comparisons with other regional jurisdictions.

Note: The Board of Commissioners established the formula for fees on June 4, 2004.

Permit Fee Multiplier =

$$\frac{\text{Amount of Building Services Budget to be recovered through permit fees (1)}}{\text{Total Annual Construction Value (2)}}$$

1. Building Services Division budget as approved by the Catawba County Board of Commissioners including the percentage of the budget that is to be recovered through permit fees.
2. Based on historical records, total annual construction value in dollars that has occurred within Catawba County in the previous year.

The Fiscal Year 2018/19 Permit Fee Multiplier is 0.0086.

Appeals: Building valuation data may be appealed by one of the following methods:

1. Upon issuance of a Certificate of Compliance the permit holder may submit final documentation of all building construction costs to include structural, electrical, plumbing, mechanical, interior finish, normal site preparation, architectural and design fees, overhead and profit. Documentation will be compared to ICC Square Foot Construction Costs to determine if the initial building valuation was accurate. All documentation that verifies a difference of more than 10% from the initial building valuation data to the actual completed cost of construction can be appealed for a refund of a portion of the permit fees initially paid.
2. Permit applicants may appeal valuation data by submitting a Cost of Construction claim form to the Catawba County Permit Center at time of permit issuance. This form shall be sealed and certified by a North Carolina registered design professional engaged in the project. The contractors and design professionals shall also agree to supply the County with all change orders that occur during project construction. Prior to issuance of a Certificate of Compliance the permit holder will be responsible to reimburse Catawba County for any additional permit fees that may be assessed due to change orders that increase the value of the building by more than 10% of the original cost of construction.

Structure values which are not identified by the International Code Council Building Valuation Data will be based on the contractor's estimate and using the permit fee multiplier with a minimum building permit of \$88.00.
